

VVR

The Revolutionary AOI Verification Concept!

VVR – THE MOST EFFICIENT WAY TO VERIFY

- Displaying AOI-generated colored images in groups or individually
- Switching between AOI images and live video during verification
- Allows fast false calls filtering
- Optional touchscreen for easier defects classification

FLEXIBLE IMAGE DISPLAY SETTINGS

- User can select most convenient number of AOI images to be displayed in one page by zooming in/out
- Images sharpness, brightness and hue can be adjusted and saved per individual preference
- UX is completely configurable: every window can be resized, moved or set to hidden
- Mouse or keyboard? Every action can have a keyboard shortcut associated with it
